SUMMARY

DevOps and Cloud Engineer with 6 months of internship experience automating CI/CD pipelines, managing Kubernetes platforms, and implementing GitOps workflows on GCP and AWS. Skilled in Terraform IaC, Docker, Kubernetes (GKE), DevSecOps (Trivy, SonarQube, Secrets Management), and observability with Prometheus and Grafana. Oracle Cloud Infrastructure 2025 Certified DevOps Professional. Seeking entry-level DevOps Engineer or Cloud Engineer roles.

EXPERIENCE

DevOps Engineer Intern

DevAngles Software Pvt. Ltd.

December 2025 - March 2026, Ahmedabad - on-site

- Automated CI/CD pipelines using Google Cloud Build and GitHub triggers for Docker builds and Cloud Run deployments, eliminating 100% of manual deployments.
- Architected GKE Kubernetes platform with Helm charts and ArgoCD GitOps sync, achieving 99.9% uptime and sub-5-minute automated rollbacks.
- Implemented keyless authentication via Workload Identity Federation between GKE workloads and GCP IAM, enforcing zero-trust security.

Cloud Engineer Intern

CoreXtech IT Services Pvt. Ltd

June 2025 - September 2025, Pune - Remote

- Provisioned multi-tier AWS infrastructure (EC2, VPC, RDS, S3, IAM, NAT Gateway) following AWS Well-Architected Framework with least-privilege IAM policies.
- Built Jenkins and GitHub Actions pipelines with SonarQube SAST and Trivy container scanning integrated on every commit.
- Authored deployment guides and troubleshooting runbooks for AWS infrastructure and CI/CD pipelines, reducing team onboarding time by 40%.

PROJECTS

Autonomous DevOps Platform - K8s, GitOps, CI/CD, DevSecOps

- Engineered end-to-end CI/CD pipelines on GKE using Google Cloud Build, GitHub Actions, Helm, and ArgoCD GitOps, achieving 99.9% uptime and 80% reduction in manual deployment effort through full GitOps-driven automation.
- Integrated Trivy container scanning and SonarQube SAST into every commit pipeline stage, enforcing DevSecOps standards across all microservices.
- Enforced zero-trust security architecture with Kubernetes RBAC, Workload Identity Federation, and Secrets Management across all workloads.

AWS 3-Tier Secure Infrastructure

- Designed and deployed a secure 3-tier architecture on AWS with a custom VPC, separating Web, App, and DB layers across public and private subnets.
- Set up Internet Gateway for public subnet and NAT Gateway for private subnets, enabling secure outbound access while blocking all inbound internet traffic to private servers.

EDUCATION

Bachelor of Engineering in Computer Engineering

Vishwakarma Government Engineering College • Ahmedabad, Gujarat Jun 2022 – Jun 2026

CERTIFICATIONS

Oracle Cloud Infrastructure 2025 Certified DevOps Professional - Apr 2025

AWS Cloud Quest: Cloud Practitioner - Amazon Web Services - Sep 2025

SKILLS

Programming: Python, Bash, Shell Scripting, YAML

Cloud & DevOps: AWS, GCP, OCI, Docker, Kubernetes, Helm, ArgoCD, Jenkins, GitHub Actions, Cloud Build, GitOps, Terraform, Auto Scaling

Monitoring & Security: Prometheus, Grafana, CloudWatch, Alerting, SonarQube, Trivy, Secrets Management, IAM, DevSecOps, Observability

Tools & OS: Git, GitHub, Linux, Cursor, GitHub Copilot
